

# Status Report 1 (semester start - 02/06)

## Summary for Progress:

Met with faculty advisor to discuss future meetings and update him on what we know so far about the project. Establish contact with the client and got initial documents describing the project.

## Pending Issues:

Meet with an intern who worked on the project this summer to get up to speed on the project, figure out what technologies he used, and his idea of where to take the project next. Also, read through the information sent over by the client and prepare to create a plan at the next meeting.

## Plans for Upcoming Period:

Get a *rough* project plan put together and start on the Project Plan assignment.

## Team Contributions:

- Max
  - Contribution:
    - Submit meeting doc
  - Hours worked:
    - 1
- David
  - Contribution:
    - Help create meeting doc
  - Hours worked:
    - 1
- Christine
