Week 8 Report

April 13 - April 19

**Team Members**Maxwell Talley — *Scribe*Ryan Menster — *DB Admin*Christine Hicaro — *Group Admin*David Bane — *Meeting Facilitator***Summary of Progress this Report**

This week we focused on updating some of the frontend code we wrote last week. Each of us has created a page and have been iteratively working to improve upon them. Most of us are still learning React, so that is happening along the way too. Along with working on our pages, we completed our reflection and met with our advisor.

**Pending Issues**

Finish any of the pages that are currently in progress. At the time this document was submitted, the workshop pages interactive table was still in progress.

**Plans for Upcoming Reporting Period**

We will spend most of the next period preparing for our presentation during dead week. If we have time, we will implement a few new features.
